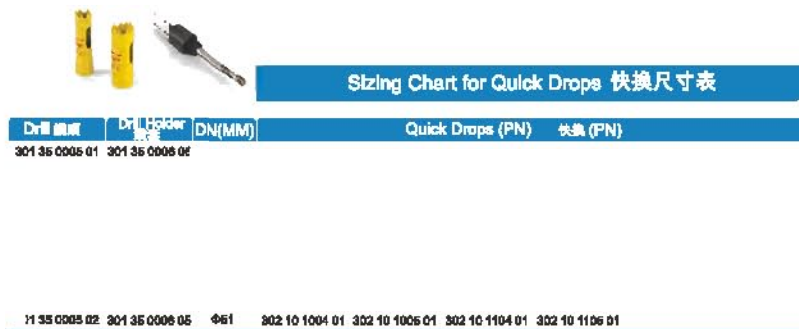

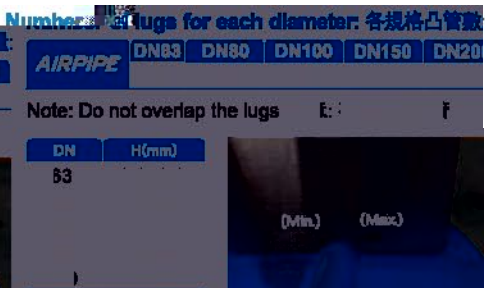

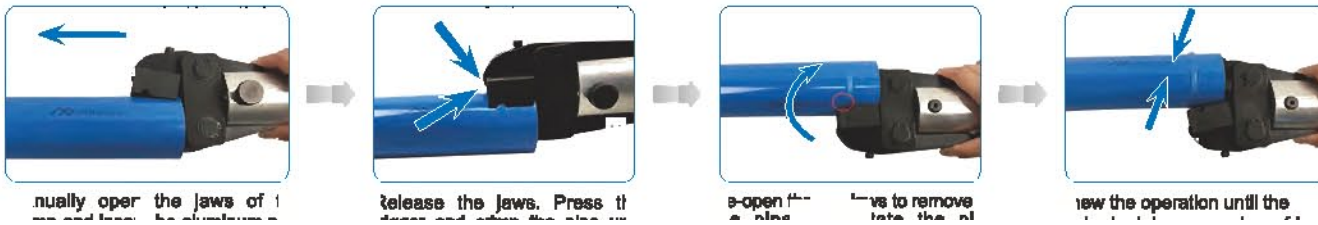

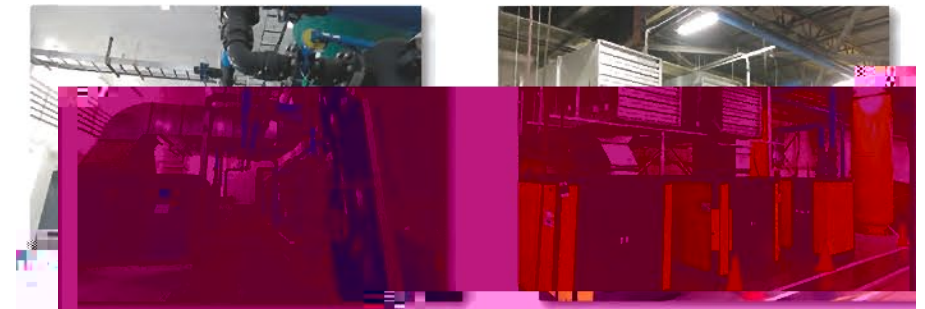

Figure 10 is a complex chart showing the relationship between flow rate (N m³/h), pipe length (L), and pipe diameter (D). The chart is divided into two main sections: a left section for flow rates up to 1000 N m³/h and a right section for flow rates up to 10000 N m³/h. The left section shows a grid of values for pipe diameters from 50M to 100M. The right section shows a grid of values for pipe diameters from 150M to 1000M. The chart is color-coded, with blue representing lower values and red representing higher values. The chart is titled 'Figure 10' and includes a legend for 'Flow rate' and 'Pipe length'.
